

For plastic containers

PUSH-LOCK™ CAPS

Push-Lock™ cap, the all-plastic tamper-evident drum closure overcap designed to directly lock onto our range of Push-Lock™ compatible PLASTIPLUG™ plastic plugs. This cap/plug-combination is independent from and able to accommodate a varying range of drum necks.

MORE THAN CLOSURES

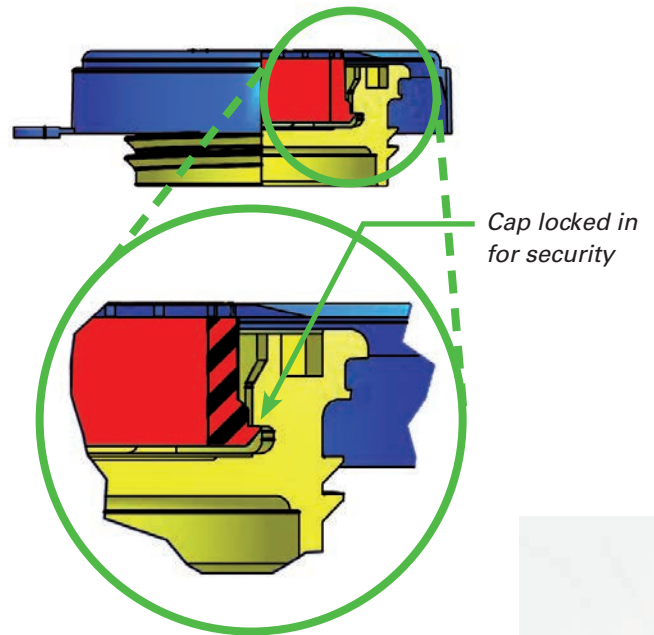

Push-Lock Cap™

Available in two sizes, G2.5 and G2, Push-Lock caps fit onto our complete range of Push-Lock™ compatible (PLC) Plastiplug™ plugs. Locking directly onto the plastic plug enables the Push-Lock™ cap to accommodate widely varying drum neck profiles and molding irregularities. This is because it relies completely on the precision fit of the injection molded cap and plug.

The all-plastic Push-Lock™ cap takes “Easy on / Easy off” to a new level. No tools of any kind are required. The Push-Lock™ caps are efficiently and securely pushed onto the plug by hand. This system ensures protection against pilferage or substitution of the drum’s contents. Pushed-on Push-Lock™ caps can be effortlessly and conveniently removed by hand.

For easier application, PLC plugs have chamfered wrench-nocks that better position and center the locking feet of the Push-Lock™ cap.

Push-Lock™ compatible Plastiplug™ plastic plugs

- BCS G2x5	PLC - Butress threaded plastic plug	- BCS 56x4	PLC - Butress threaded plastic plug
- BCS G2x11.5	PLC - NPS threaded plastic plug	- BCS 70x6	PLC - Butress threaded plastic plug

Color options:

- Manufactured from PE, the standard Push-Lock™ cap is supplied in either natural or white color.
- Subject to minimum order quantities a full array of colors and custom designs is available.
- The Push-Lock™ caps can also be printed with your Company logo or message about the drum contents.

Advantages:

- ✓ Prevents dirt ingress and contamination.
- ✓ The product is all plastic, no rust and no sharp edges.
- ✓ Easy push-on by hand, no tools required for the application of the cap.
- ✓ Easy and ergonomic removal of the cap, pull-off by hand, no tools required and product stays in one piece.
- ✓ Printable and tamper-evident.
